Chandrabhan
Sr. Executive

We are a tight-knit group, and ASC is happy to have you in our ASCian's family. Each vertical in the company has set a benchmark and your knowledge/skillset is going to add value to the company's growth. Together, we'll tackle exciting challenges, celebrate occasions and grow consistently. July 2022 has been an enriching month with 14 employees joining us in various verticals and positions.

Welcome aboard, new buddies! We are sure that you all will be a great addition to our team and the company!

Tradition Continues- Birthday Celebration

I hope that your birthday cake was amazing as you are! Faith, reunion and patience are the secrets of progress and your presence made the month even more awesome.

Your birthday is a reminder that life is a story and you are a protagonist character who has the key to make your movie hit or flop. Make most of it because life is not in the future and not in the past but in the present. It's a pleasure to have you in the family. Happy birthday to the July born legends.

Celebrating Our Director's Birthday

You are not only a great leader but an ocean of Knowledge inspiring each day. When people give examples of how women have changed set patterns, your role and contribution comes first.

May countless blessing touches you with good health and happiness. Happy birthday to someone with the rarest combination of beauty and brain!

Employee of the Month

Karan Chaudhary- CA Article trainee

Yogender- Executive

You are the shining star and we are delighted to award you as “Employee of the Month” for June 2022. Your extraordinary performance and great vision for the company’s growth are always appreciated. The success of the company is largely due to driving efforts and committed employees like you.

You certainly deserve it by surpassing the expectations and ASC wishes you to continue success in future. Your dedication and eagerness to take the responsibility is what make you stand out in the crowd. Congratulations!

Hello Friends!

My respected seniors,

My name is Shiwani Aggarwal.

I want to share my work experience with you all, I joined ASC family in pandemic period in 2020 month of September in finance team and will be completing my two years with flying colors. Here I learnt a lot from my colleague, I am working here as sourcing solutions specialist in ASC sourcing solutions private limited , I faced many challenges when Atul Richard was leaving his profile at that time I faced difficulties because I never handled operations part so when I was taking handover from him. "Many problems come to us but we should never give up" so I did my best with full of my dedication with the help of my seniors Deepak das sir, Richa mam, Devender bhatt sir, Ravi sir they always support me and appreciate me whenever I stuck somewhere in my work .

I really enjoy my work in ASC family, I am glad to be here.

Thanks to all!

Outside Work Audit Dairies

As it is pretty often said in our company that your colleagues are your family and your workplace is your second home because of the time spent in the office each day. We have a small team of 9 people and since our work requires us to be at client locations, we are hardly seen in the office.

We had been planning a trip for 3 months but every time something or the other used to come up and we failed to go. But one Sunday, we planned a small day out to Manesar to do activities like Go-Karting & Bowling and informed everyone that whosoever can join, join, because this time it was not going to get postponed. And much to our surprise, 6 of us showed up even though we had a working Saturday a day before.

The experience was amazing, getting to know my colleagues outside of office was something that we should have done before. The Go-Karting experience

was amazing and even though some of us were doing it for the first time, all of us did a pretty good job! Our day out was filled with joy, laughter, stories, experiences and memories. I look forward to more such, out of office bonding programmes with my team and getting to know them more.

Regards,

Kanav Malhotra
Internal & Forensic Audit Team.

Happiness Mantra-Enlightenment from Delhi Rickshawala

Wireless bud in one ear, tapping on the tunes of retro songs, met this gentleman on the roads of Karol Bagh, Delhi. Since it was scorching hot, I inquisitively asked him "what are you so happy about?" He smiled and replied: *Beta, unlike before now I am enjoying the work I do. He went on about how the society forced him into hard labour jobs and it's been more than 45 years. . I always liked retro songs but couldn't enjoy them because of either time/money restraints or due to job. Even everyone told me since back then to work hard and persistently, so that I can have a better life ahead.*

Beta, it took me 40+ years to understand that you can't make your life better if you can't enjoy your present day. Now every day, I plug in single headphone and take out my cart and go to work. I enjoy each second of everyday while I work and do not crib about having a better life.

Beta, take note " Never crib and always have contentment about - the food you have, the income you earn and your better half." - That's my learning from life.

He then plugged in the song:

"चला जाता हूँ, कसि की धुन में

धड़कते दिलि के, तराने लयि" - waved at me and paddled away.

- Abhishek Pariwal

Farewell: A Journey to Cherish

I had a great learning experience working with ASC group of company. Here every employee gets an opportunity to learn & improve. Every individual is given tasks and responsibilities for self growth.

Talking about the improvement part I'll suggest the management to be more friendly and support & treat every employee equally and understand their work and life challenges both.

Will also suggest the management to have regular fun and games tasks along with general knowledge sessions about different departments for growth perspective.

Thank you so much to ASC sansar (Mumbai) for supporting me and giving me the opportunity to work

- Shiv Kumar Binod Thakur

Farewell: Place that added value to my Profession

As my first corporate experience, i would like to take a moment to appreciate the support and guidance I have received at ASC.

In the last 1 year, I have enjoyed work, received new opportunities and grown as a person.

I have received a lot of guidance under various people which has helped me to learn more as a person and made me understand the value of working as a professional.

- Shubham Sethi

Promotion Stories and Gratitude

Thanking Organization for the promotion:

I thank ASC for my recent promotion to position of Assistant Manager. I am very grateful to have been chosen. I am excited to do my part and to see the ways I can help the company in my new role. Thank you for believing in me and pushing me towards taking on this new responsibility.

- SIMRAN RAJEEV

For me, a promotion means: you trust me, you believe in me, and you see my potential. It's not too much to say that I am honoured by the opportunity and I will not let you down. Thank you ASC for promoting me to position of Senior Executive.

- VIKRANT SHARMA

DESTRESSING BOLLYBEATS

We, as Indians, pride ourselves on our rich culture and most importantly, music.

As an organisation, ASC believes it is a must to provide its employees with a chill pill from time to time in order to cater to an excellent work-life balance. Socializing and growing as a team are promoted on all fronts.

What better for bonding than sharing Bollybeat Sunday on the dance floor of Moire cafe, sector 18, Noida, featuring DJ San. The evening of 3rd July went by like a flash.

The ASC Sr. Vice President, Mr Mayank Singhal joined us and we celebrated together, as a group. Each song played by the DJ served as an excellent stressbuster for everyone. We remembered what it's like to hustle like a team and then party together in appreciation.

As a cherry on the top, ASC chose the perfect day for relaxation. The team vibed together and it was a much-needed de-stressing night that ended with all smiling faces.

China's new border law and India

China brought the new border law at a time when there has been a border dispute with India for more than a year.

However, no clear reason has been indicated in this law. Nevertheless, many reasons are being given by experts, such as-

Some scholars believe that China has constantly kept an eye on the return of the Taliban to power in Afghanistan and has brought a new border law keeping this in mind, while some scholars believe that China is skeptical about the fact that in Xinjiang province Islamic extremists belonging to Vigar Muslims can cross the border and come here.

At the same time, some experts see it by linking it to the India-China border dispute.

By the way, any of the above reasons have not been clarified in this law, even what effect this law will have on China's border security has not been clarified.

What is land boundary law?

1. China has linked border defense with its sovereignty and territorial integrity.

On this, experts are of the opinion that "It is not necessary that China should make any changes in its border security, but this law definitely shows confidence about China's border security."

2. The second important thing that has been made in the law is that the military can close its borders in the event of a conflict or war that threatens the border security. The law also focused on improving 'construction works' in border areas.

In the new law, along the border, construction in 'border areas', improving work operations and strengthening support capacity for construction have also been included.

3. In the border areas, China can take appropriate steps to strengthen border security, cooperation in economic and social development, strengthen public services and infrastructure.

How worrying for India?

China-Pakistan agreement was signed in 1963, which was a temporary agreement, but China-Pakistan friendship is also well known. Also, China has signed border agreements with 12 of all its 14 neighboring countries. And Bhutan has in the past reached an agreement on a border dispute-related matter, in which it has been emphasized that both countries will reach a settlement of the border dispute through dialogue.

In such a situation, now India is the only neighboring country with which the border dispute is continuously deepening. In this circumstance, this law definitely creates a bit of a doubtful situation for India.

At the same time, senior journalist **Ghazala Wahab** says, "India was thinking so far that the border dispute with China would be resolved through dialogue. But China raised its level to a great extent by linking the 'border dispute' with its 'sovereignty'. Now talks will not solve the whole matter. Now the solution will come out only on 'China's terms'. Whatever 'offer' China will give to India, if India accepts it, then fine, otherwise whatever China wants to do He can, including the option of war."

If their words are taken into account, then it seems that this law is a matter of concern for India, and India should prepare itself ready to deal with every situation in time.

Well, the reality and effectiveness of this law will be seen with time, but having full faith in a neighboring country like China would be the biggest mistake. Therefore, the reality is that India also has to be ready to deal with every situation at its level.
