Thoughts on Completion of 5 years at ASC

It's been 5 years since I started working at ASC and honestly, it feels like just yesterday, when I joined being a little excited and a little nervous. It's been a wonderful journey where I have seen myself growing along with the company. With every passing year, I have learned so much from seniors to colleagues. The culture & the environment has always been so warm and welcoming that motivate me to spend my career in the coming years too.

ASC is just like my second family Everyone here is so friendly and always there to help because of which I never felt hesitant to ask or clear out any doubt at any given time. Truly blessed to be part of this organisation. I would especially like to thank Deepak sir, Jaswant sir, and Faiz sir for always standing by me.

HR Committee Members

'Life will get busier with time, Let's make time to do things you Love'

The hardest thing to find in life is balance, especially, the more success you have, the busier you get making work culture depressing. So, why not make the workspace fun and interesting with frequent events showcasing your hobbies/things you love.

To make ASC a healthy and interesting environment, a committee member has been selected from each vertical. Each member is responsible to make ASC a place you desire to work.

Client Appreciation

GST team has received an appreciation letter from our esteemed client "**Blackberrys**". ASC acknowledge/recognise the team's effort and commitment offering extraordinary services to clients.

Rightly said by Ryunosuke Satoro "Individually, we are one drop. Together, we are an ocean".

As the new financial year begins, it's time for you to do your job planning and set your targets for 2022-23.

With the beginning of the Financial Year, the KRA clock starts ticking afresh. So, you should also start your year planning afresh taking into consideration the past achievements and challenges faced in the previous year.

A year from now, you will wish you had started today.

Start Today

Time goes away and leaves us with only one of these two things: **REGRET** or **RESULTS**.

A year from now you will wish you had unfollowed emotionally draining people.

A year from now you will wish you had said "**NO**" more often

A year from now you will wish you had said "**YES**" to yourself more often.

A year from now, you will never be sure of the results, but you can certainly be sure of regret, if you don't

START TODAY.

Champions aren't made in the gyms. Champions are made from something they have deep inside them—a desire, a dream, a vision.

“GYM LIFE”

“If you're training hard and heavy with the goal of lifting something awesome, something is always going to hurt. Whether it's your wrists, elbows, knees, hamstring, or even something ridiculous like a serratus muscle, one body part or another is always going to be giving you some bullshit. The elite athletes train in spite of or around those injuries.”

-Vikrant Sharma
