Marriage Anniversary Celebration of our BOSSES

Congratulations on reaching another milestone in your journey together. Your dedication to your marriage and your commitment to each other is truly admirable. February is special because it marks your anniversary, we would like to take this opportunity to wish you both all the happiness, love, and joy that life can bring.

Thank you for being an incredible leader and for inspiring us with your dedication to both your personal and professional life. You have set a wonderful example for us all.

Wishing you a very happy anniversary and many more happy years together!

Trip to Andaman & Nicobar Islands

1. Havelock Island

Havelock island, officially known as Swaraj Dweep. Swaraj Dweep is one of the few places that the administration of the Andaman and Nicobar Islands union territory of India has permitted and encouraged development of tourism, with a focus on promoting eco-tourism.

Radhanagar Beach on the western coast, also known as Number 7 Beach, is one of the most popular beaches on Swaraj and was named "Best Beach in Asia". Other notable beaches include Elephant Beach on the northwest coast and Vijay Nagar. Beach Kalapathar is another famous beach.

2. Cellular Jail

The Cellular Jail, also known as Kṝ̣ṣ̄ṇ̄ P̄̄n̄̄ (lit. 'Black Water'), was a British colonial prison in the Andaman and Nicobar Islands. The prison was used by the colonial government of India for the purpose of exiling criminals and political prisoners.

3. Go Bird Watching

You may not know it, but Andaman is home to a huge flock of birds that can be seen and heard all around the island. Some of these birds are migratory, but many rare species can be spotted year-round! The interest in bird watching and photography has increased so much that tours have started being organised to spot them.

4. Check Out The Mud Volcanoes

Andaman is special and is coincidentally one of the few places in the world where you can witness mud volcanoes. These small muddy craters are created by natural gases emitted by decaying organic matter underground that push mud upwards.

Trip to Andaman & Nicobar Islands

You shouldn't expect something big on the lines of the typical volcano eruption or lava spurts, because none of that will really happen.

Most of the time it's just mud spurting out of the ground.

5. Hop on Board A Government Ferry

As your city has mass metros/ local trains, Andaman has its ferries that are just as essential. Being the primary mode of travel from one island to another, government ferries have become a favourite of the locals. The open decks are enjoyed by everyone and you'll have a great time on the short trip. It may be difficult securing seats in these ferries, you can book the tickets from the booking office up to 3 days before the travel date. This local experience in Andaman gives a glimpse of the daily life of the people of Andaman, which will help you connect to the place even more.

Make it positive !

When you go through a negative situation/ thought, don't think about it. Make it positive.

"A good technique for ridding the mind of worry and other negative, life-draining influences is **"Opposition Thinking"**.

I learned that under the grand laws of Nature, the mind can only hold one thought at any one time. Try it yourself on your own, you will see that it is true." I did try it and it is true.

"Using this little-known information, anyone can easily create a positive, creative mindset within a short period. The process is straightforward: when an undesirable thought occupies the focal point of your mind, immediately replace it with an uplifting one. It's as if your mind is a giant slide projector, with every thought in your mind being a slide. Whenever a negative slide comes up on the screen, take swift action to replace it with a positive one.

"Here's a real-life example. Let's say you have had a tough day in office. The manager disagreed with your proposals, the client on the other side is sending rude emails, and your CEO is more than a little annoyed with your performance. You come home and fall into your favourite chair, full of gloom. Step one is to become aware that you are thinking these uninspiring thoughts.

Self-knowledge is the stepping stone to self-mastery. Step two is to appreciate once and for all that just as easily as you allowed those gloomy thoughts to enter, you can replace them with cheerful ones. So, think of the opposite of gloom. Concentrate on being cheerful and energetic. Feel that you are happy. Perhaps you might even start to smile. Move your body as you do when you are joyful and full of enthusiasm. Sit up straight, breathe deeply and train the power of your mind on positive thoughts. You will notice a remarkable difference in the way you feel within minutes. Even more importantly, if you keep up your practice of Opposition Thinking, applying it to every negative thought that habitually visits your mind, within weeks you will see that they no longer hold any power. Do you see what I'm getting at?"

"Thoughts are vital, living things, little bundles of energy, if you will. Most people don't give any thought to the nature of their thoughts and yet, the quality of your thinking determines the quality of your life. Thoughts are just as much a part of the material world as the lake you swim in or the street you walk on. Weak minds lead to weak actions. A strong, disciplined mind, which anyone can cultivate through daily practice, can achieve miracles. If you want to live life to the fullest, care for your thoughts as you would your most prized possessions.

"Work hard to remove all inner turbulence. The rewards will be abundant."

It's not a hobby to us... It's a lifestyle.

Everyone enjoys spending time on their hobbies during leisure times. For Kiran, it's planting flowers. She loves to see those flowers bloom as it helps her to remain in constant touch with nature. Here are some of the varieties that she has planted and nurtured with great care at her house.

From - Kiran Sanghotra - LM/BIS

We all must have tried our hands at drawings at least once in our childhood. Some kept with it and some stopped doing it with time. For Manish, it is still one of his favourite things to do when he feels down. He does some brilliant pencil sketches of day-to-day things. Here is a very small example of his talent.

मेरी मां ।

यूं तो खूबसूरत थे वो हर दिन जो आपके साथ बतिए थे ।
ना जाने आप कहाँ से आए थे ।
यूं जो आप समझ लेते थे मेरे बना बोले ही दिलि की हर बात ये हुनर कहा से लाए थे ।
ना जाने आप कहा से आए थे ।

आपसे भी मलिती थी प्रेरणा मम्मी कैसे आपको बोल पाए थे ।

ना जाने आप कहा से आए थे ।

धूप में खड़े होकर वो 8 घंटे की ड्यूटी । गले में दुपटा ओर सरि पर पल्स पोलियो की टोपी ।

फरि भी कोई शकिवा नहीं इतनी हम्मित कहा से लाए थे ।

न जाने आप कहा से आए थे ।

हमे दूर से देख कही कभी डाट, कभी मुस्कुराते थे ।
हम ठीक रहे इसके लिए कर्सी से भी लड़ जाते थे ।
ये हम्मित कहा से लाए थे ।
न जाने आप कहा से आए थे ।

अपनी इन पंक्तियों को वरिम देते हुए बस इतना बताना चाहूंगा ।

आपसे दूर ये जदिगी बना रुके सफर कर रही हे और हम ख्वाइशे लेकर वही खड़े है ।

मेरी मां ।

DID YOU KNOW?

★ **Did you know the filling in Kit Kats is made from damaged Kit Kats?**

The folks at the Kit Kat factory sure know how to recycle! Whenever a Kit Kat bar is somehow made imperfect during production like air bubbles or some other issue, the chocolate bar isn't thrown out. Instead, they ground up into a fine paste and turned into a filling that's then incorporated back into the production process to create new Kit Kat bars!
